Ice Skater Rose To Fame Quickly

Bess Ehrhardt, brunette beauty of the Ice Follies of 1940, now appearing nightly at Winterland, San Francisco, rose to fame practically overnight.

"America's Sweetheart of the Ice" was unknown three years ago, except for minor local fame in the vicinity of her home town, Superior, Wis.

Her rapid rise to the top is almost unequalled in the sports amusement world and critics say she has reached stardom five years sooner than is usual for a skating star.

In the Ice Follies beauteous Bess presents a solo number and also appears in a pair act with Roy Shipstad, acclaimed as the world's greatest skater.

Brunette Bess has a style all her own. She is dynamic, with a definite flare for the acrobatic and the spectacular. Possessing a rare sense of showmanship, she has developed her two specialty numbers to a point of perfection.

Along with everyone else in the revue, Miss Ehrhardt will appear in the second special Ice Follies matinee at Winterland tomorrow.

Ice Follies tickets are available at Winterland, at Sherman Clay and by mail order.

MENLO PARK NEWS

MENLO PARK — Miss Carmel O'Keefe leaves shortly for Lake Tahoe to spend a month with friends.

Bud Reynolds was married last week to the assistant superintendent of the Stanford Convalescent Home. The wedding took place at Salinas. Mr. and Mrs. Reynolds will reside in Menlo Park, where Mr. Reynolds is employed at Central School.

In San Carlos a $130,000 theater building is being erected. The town is only a little larger than Menlo Park and if it can support a play house of this magnitude, why cannot this city enjoy a modern theater?

Mrs. Ellen Fife of Atherton passed away at the Palo Alto Hospital last Monday. She was the daughter of the late Nicholas Lunning, a San Francisco capitalist. Survivors are two daughters, Mrs. Beatrice Shorlidge and Mrs. Lawrence Foster, Atherton, and a sister, Mrs. James A. Folger, Woodside. Another sister was the late Mrs. George Whittell, Woodside.

Mrs. Frank Rice Short has opened a portion of her pretty dwelling on Ringwood Rd. to the Red Cross and allied relief society for headquarters. Anyone wishing to donate clothes or cash may call there. Members of the society meet there for sewing and preparing materials for the soldiers over seas.

Louis Diebles, an expert accountant, is inspecting the books of the city and will make his report to the council at the next meeting of the board. Mr. Diebles is a resident of the Cohnan tract and has for some years done this work for the city.

The fire department was called out to Manzanita St. and the Alameda Wednesday to extinguish a grass fire started by a lighted cigarette. The blaze was put out with only nominal damages done.

R. C. MAN HURT IN CRASH

Alec J. Walousky, 51, Redwood City, suffered facial cuts and head injuries Monday in a accident at Middlefield and Stierlin Rds, north of Mountain View. Arthur Davidson, 17, Mountain View, was the driver of the other car, according to the highway patrol report.

BUYS HOME IN ATHERTON

Milton I. Waters, vice president of the Morris Plan Co. in San Francisco, has purchased a $13,000 home in Atherton, according to a deed recorded at request of California Pacific Title & Trust Co The seller was Sena Campbell.

SUMMONS
No. 31377

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

MARGARET REGAN, Plaintiff, vs. PATRICK REGAN, Defendant.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court. The People of the State of California Send Greetings to:

PATRICK REGAN, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 15th day of May, A. D. 1940.

NOTICE OF HEARING OF PETITION FOR ORDER TO EXECUTE PROMISSORY NOTE AND DEED OF TRUST.
No. 8882—Dept. 2

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Estate of FRED W. NICHOLS, also known as F. W. NICHOLS, Deceased.

NOTICE IS HEREBY GIVEN that MATILDA NICHOLS, administratrix of the Estate of Fred W. Nichols, also known as F. W. Nichols, deceased, has filed with the above entitled court, in the above entitled matter, her verified petition, praying for an order of said court, authorizing her to execute a promissory note and deed of trust on certain real property of the Estate of said decedent, and that Monday, the 29th day of July, 1940, at the hour of 10 o'clock a.m. of said day, at the courtroom of said court, department 2 thereof, at the Court House at Redwood City, County of San Mateo, State of California, has been set as the time and place for the hearing of said petition; and all persons interested are notified to appear at said time and place and show cause, if any they have, why the order prayed for in said petition should not be made.

Reference is hereby made to said petition for further particulars.

Dated: July 11, 1940.

You don't have to suffer with
ECZEMA or SKIN DISEASES
any more by using our Chinese herbal treatment

No matter how long you have been suffering or what you have tried, our CHINESE HERBS can positively help you in any form of skin diseases, such as Eczema, Hives, Poison Oak, Ringworm, Rashes, etc. Many others have secured wonderful results and were made completely well by taking our CHINESE HERBAL TREATMENTS after suffering in despair for years. The following testimonial proves what we have done for others we can do for you.

Vaughn, Wash., March 26, 1936
Yee & Ko Herb Co.
Dear Sir: I want to thank you for curing my hands of eczema. After suffering for 35 years with cracked, bleeding hands and waking up in the night with terribly itching hands, it's no wonder I am thankful to you.
I have tried doctor after doctor, everything advertised for eczema in papers; in fact, I tried everything, and after the first three doses of your medicine I could see my hands get better. After about five weeks of your medicine, my hands are entirely well and haven't any sign of it coming back.
Again I thank you. I am, sincerely yours,
(Signed) MRS. M. BABCOCK, Vaughn, Wash.

S. C. County Census Shows 29,249 Gain

SAN JOSE — Population of Santa Clara County is revealed by the 1940 census to be 174,367 —an increase of 29,249 since 1940.

Township tabulations — with township boundaries in each case exceeding city limits—follow:

San Jose, 89,784—78,967 in 1930; Burnett, 3233 — 3072 in 1930; Campbell, 4334—2791; Gilroy, 8230—7439; Redwood, 7788—6547; Santa Clara, 18,291—14,839; Saratoga, 2639—2524; Palo Alto, 19,275—15,838; Sunnyvale, 8350—4490; Fremont, 12,443 — 8611.

'Primrose Path' at Redwood

With Ginger Rogers as his victim, Joel McCrea performs step one in kiss-stealing: notice a smudge on the girl's face; gallantly leaning over to remove the smudge, he acts quickly and plants the kiss on Ginger's lips. But this innocent act has its repercussions, among them being a date, proposal and marriage that very night! Ginger and Joel's meteoric romance is the dramatic highlight of the realistic entertainment, "Primrose Path." The film opens Sunday at the Redwood Theatre on a dual program with "King of the Lumberjacks."

HEADS EDUCATION BOARD

R. L. Crane, superintendent of the Jefferson (Daly City-Colma-Lawndale) Elementary School District, has been elected president of the San Mateo County Board of Education to succeed Andrew Spinas of Redwood City. The board met at the office of Miss Pansy Jewett Abbott, county school superintendent. Miss Abbott will continue as secretary of the board.

We have to hoard up money for vacation too, like the majority of folk in our circumstances. BUT we DID put in new gas heating equipment. What we saved 10% about equals what we will spend for our vacation. Monthly payments are put off until after October 1st, which is a big help to our budget. The men who installed our new furnace say it will give a lot more heat, faster and livelier and will be mighty reasonable to operate. We feel real proud of this summer bargain we made.

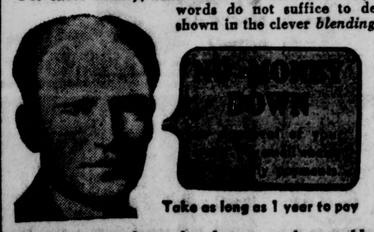
DR. CAMPBELL, Dentist
SAYS: "So **intimate** to one's everyday life and so important to one's **appearance** are

DENTAL PLATES

that everywhere dentists are using and recommending the new TRANSPARENT DENTAL PLATE MATERIALS.

For sheer *beauty, naturalness* and *daintiness* they are *unique*. Mere words do not suffice to describe the *artistry* shown in the clever *blending* of color tones that make them so *lifelike*, so *gratifying* to the eye and so well *adapted* to their purpose that one can well understand why they are being so enthusiastically *endorsed* by many members of our dental profession, and why we are *proud* of such a great factor that does so much to enable us to make *dental plates* that are nearer in *appearance* to *nature's own* tissues than many materials formerly used.



Take as long as 1 year to pay

Transparent Dental Plate Material

Means so much to you! Dentists everywhere are using it in making plates and praising it for these qualities

1. **LIGHTWEIGHT** . . . yet practically unbreakable—so strong the palate can be made thin—clear, transparent and dainty.
2. **SIMILARITY** in color to nature's own gums being so great, results can be obtained that *defy detection.*
3. **SNUG FIT** possible, due to adaptability of transparent material to each individual mouth.
4. **SMOOTH** glossy finish made possible so that plates can easily be kept clean.

REASONABLE PRICES

SUMMONS
No. 31307

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

EMILY WEYBURN, widow of Thomas Weyburn, Plaintiff, vs. J. T. MEDDOCK, EDITH M. ROYLES, also known as EDITH ROYLES, PARVIN JONES, also known as PARVIN P. JONES, an incompetent person, FIRST DOE, SECOND DOE, BLACK AND WHITE, a copartnership, and A. B. C. COMPANY, a corporation, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo, and the complaint filed in the office of the County Clerk of said County.

The People of the State of California Send Greeting to:

J. T. MEDDOCK, EDITH M. ROYLES, also known as EDITH ROYLES, PARVIN JONES, also known as PARVIN P. JONES, an incompetent person, FIRST DOE, SECOND DOE, BLACK AND WHITE, a copartnership and A. B. C. COMPANY, a corporation, DEFENDANTS.

YOU ARE HEREBY DIRECTED to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Mateo, within ten days after the service on you of this summons, if served within this County; or within thirty days if served elsewhere.

It is sought by said complaint to have the following described property partitioned, to-wit:

All of that certain real property situate in the County of San Mateo, State of California, to-wit:

All of the Tide Land Lot 16 in Section 27, Township 3 south, Range 5 West, Mount Diablo Base and Meridian, as shown on Map No. 1 of Salt Marsh and Tide Lands situate in the County of San Mateo, State of California, prepared by Board of Tide Land Commissioners and particularly described as follows:

BEGINNING at a point on the East line of Section 27, distant 40 chains due North of the Southeast corner of said Section; thence North 14.02 chains to the Southerly line of San Bruno Canal; thence West 10.00 chains; thence South 14.02 chains and thence East 10 chains and containing 14.02 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you answer as above required the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the court for any other relief demanded in the complaint.

GIVEN under my hand and seal of the Superior Court at the County of San Mateo, State of California.

DATED: April 29th, 1940.

San Mateo Decides Census Count Is O.K.

SAN MATEO—The city council ended its squabble with U. S. census takers Monday by agreeing with H. C. Sutherland, eighth district supervisor, that the census "was competently taken" and expressing "complete satisfaction" that the population of this community is now 19,237. The council was convinced after a cross-section check failed to show serious errors.

Safety Features Included in This Home

Modern Styles
Simplicity Is Keynote

Simplicity in exterior design is considered by the Federal Housing Administration to be one of the basic principles of planning small houses for livability and low cost, according to D. C. McGinness, FHA district director for Northern California.

"The successful design of small house exteriors largely is a matter of first obtaining an effective, but simple, composition," Mr. McGinness said. "This is achieved through the use of simple roof lines and care in the disposition of door and window openings.

"The second objective is good proportions in the width or length of walls to their height. The third is the use of simple variations and materials which lend interest to the wall areas without producing a restless appearance.

SIZE APPEARS LARGE

"Simplicity in exterior design results in an attractive livable house and gives the small house the appearance of maximum size. The fewer different materials used in the exterior the better, and the less the cost will be.

"Structural methods which minimize height usually are the most economical and result in small houses of better exterior proportions than when they are high in relation to their width and length.

"Appearance also is generally improved by avoiding breaks in the roof lines at the eaves, which saves cost as well. Unnecessary gables and dormers, over-elaborate cornices, and all non-essential features profitably can be omitted.

LOCATION IMPORTANT

"The location of doors and windows have an important bearing on the exterior appearance of the house. These are a matter, not of cost, but of forethought as to their effect on the exterior. The shape of the house, however, rarely effects the cost.

"Through proper spacing and grouping of doors and windows, a simple rectangular house can be given character and pleasing variation from its neighbors.

"Corner windows often may be used effectively to obtain wall space in small rooms. Where windows of the usual type are used, they should not be placed too near the exterior corners, as this has the effect of making the structure appear weak at the corners, where it should appear solid and strong."

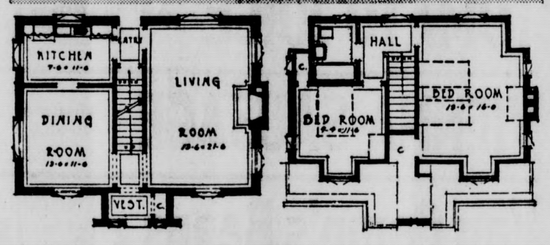
Bay Region Homes Shown in Movie

One of the new and interesting exhibits now being shown in the Home and Gardens Building at the Exposition is The San Francisco Bank's thirty minute color movie, which gives a graphic presentation of the many types of beautiful homes in this area.

The movie, which was produced and directed by Miss Downing, with the assistance of Francis Newton of the Real Estate Board, shows the types of new homes that are being constructed in the western section of San Francisco, on the Peninsula, in Piedmont and on Belvedere Island. The pictures, with the beauty of the homes brought out by the natural color photography, show city, country, and suburban homes of various prices, which under the present low cost FHA home financing are available to persons of small and large means.

Turquoise Popular Color This Season

A delightful living room has walls painted a cool shade of turquoise — which, incidentally, is one of the leading colors for the coming season. The ceiling and trim are done in oyster white, the floor is oak, stained brown, then waxed and decorated with hooked rugs. Turquoise upholstery of a deeper shade than the walls covers the wing chair and a printed mohair fabric clothes the sofa. Furniture is 18th century mahogany.



By AP Feature Service

Parents will like the safety features in this English-type home of concrete construction.

Fire protection is stressed in the two-story structure, concrete from footings to roof. The solid, enduring charm of the high-peaked, clipped-eave exterior will prevent "fad" depreciation.

The exceptionally large living room, with its huge fireplace, dominates the downstairs floor plan. The exterior is finished in cement stucco or cement paint.

The approximate cost of this livable home would be around $5000, without lot. Costs vary over the country, but the figure is a good average.

The Federal Home Loan Bank board, Washington, D. C., or local lending agencies have information on the Federal Home Building Service Plan, which includes supervision of construction.

Harmony
Architectural Style Noted

When building a new home the buyer should choose an architectural style similar or suitable to that of other houses in the immediate vicinity. To be considered as a part of the whole community rather than as a separate and distinct entity, the design selected for the house should conform in general to the design of the other houses in the immediate neighborhood.

To illustrate, federal housing administration officials say that because nine-tenths of the houses in a block are Cape Cod cottages it would not be necessary for the home builder to select a Cape Cod cottage. It does mean, however, that if the majority of the houses are unpretentious and informal in design, the architectural style of the house should be simple and restrained.

Conversely, if the majority of the houses in the community are pretentious, sophisticated and formal, it would be unwise to choose to build a Mexican farmhouse, a Cape Cod cottage or some other informal house.

A neighborhood developed with houses of similar appearance is more stable, more attractive, and more permanent.

Farmers
Soil-Building Period at End

Between now and Aug. 31 will be wind-up time for soil-building and erosion-control practices under the 1940 agricultural conservation program.

Need to complete practices by Aug. 31, closing date set for the current program in this state, is being called to the attention of local farmers who desire to include payments for such practices as part of their 1940 program co-operation.

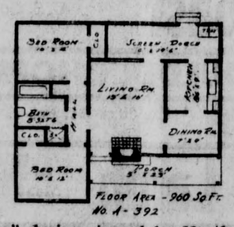
"An important over-all requirement which all practices must meet, in order to qualify for payment, is the actual accomplishment of soil conservation," states M. R. Mattei, chairman of the AAA's agricultural conservation committee for this county.

"There's a frequent saying by farmers that 'soil conservation costs money.' Out-of-pocket costs of varying degree are always involved in performing any conservation practice, ranging from the cost of cover crop seed to building check dams to stop gully erosion or terracing.

"These AAA conservation payments may not, in most instances, cover the entire costs of any given practice, but they also may mean the difference between the farmer's doing a needed conservation job on his farm, or being forced to let it go for a while."

Recently, AAA county office representatives checked up on the general picture of conservation among farmers of the county and found that the seeding of cover crops, contour seeding, and seeding vetch are the most widely used soil conservation measures this year. It is hoped, however, that farmers will take advantage of other practices under the program during 1941.

Typical California Home Center



The "Greenwing" design, issued by Northern California Homes Foundation this week, is a typical California center of family security, 1940 model. Charm and convenience are cleverly combined in the plan. The front view may be made especially attractive with cream or tan sidewalls, green roof and trim, and the chimney whitewashed. The large screened porch at the rear will serve for both housework and as a place for family meals. The front dinette may be made an L extension of the living room by elimination of partitions. There is economy floor area of 950 square feet. Information on the Greenwing may be had through retail lumber dealers or from Northern California Homes Foundation, Fresno.

Inspections
Quake Shows FHA Value

The importance of proper construction as a protection for life and property was forcibly demonstrated in the Imperial Valley disaster of May 18, when a severe earthquake leveled hundreds of homes and other buildings, and collected heavy toll in human life.

In its study of various types of construction, stability and resistance to unusual strain, the Northern California district office of the Federal Housing Administration has compiled a comprehensive file on the havoc left in the path of the temblor. Authors of the reports contend that they found "an undisputable demonstration of the benefits derived from proper types of construction, due to the application of FHA standards and requirements."

They reported many houses completely wrecked. The severe shock shifted foundations, porch supports were gone, chimneys down, and roof lines so badly swayed that the houses must be razed.

Immediately adjacent, however, were substantially constructed houses, built in accordance with FHA requirements and inspection, which suffered no damage whatever. Even chimneys were standing, because they were reinforced in compliance with FHA requirements.

Reporting on his observations, E. A. Walsh, chief underwriter in the San Diego office of the Federal Housing Administration, writes:

"It is not boasting to state that every individual or group whom I contacted during the three days' intensive work in the Imperial Valley were high in their praise for FHA construction standards and requirements. The relatively minor losses which occurred to properties upon which the FHA had insured mortgages has a striking effect on everyone.

"On this inspection trip I saw, personally, more than 200 houses on which we have insured loans. I talked with many of the occupants of these houses. The great majority whose homes met little or no damage were high in their praise of better housing standards, particularly when they were witnesses to the severe losses and casualties of their neighbors, who were less fortunate in regard to the types of construction used."

Hot Water Heaters Regulated by Weather

Weather-controlled hot water is one of the more recent developments in the heating and plumbing field.

Through use of differential aquastats, hot water temperatures can now be maintained automatically in line with outdoor weather changes. Twin precision-built thermal elements work to give precise control. As weather conditions change, the outdoor element activates the element immersed in the water to be controlled.

In replacing outmoded or inefficient water heating units, this type may be installed and the replacement financed under the modernization credit plan of the Federal Housing Administration. Funds for the work are obtained from lending institutions qualified by FHA.

FURNISHINGS FOR MODERN HOMES

Suggested by the Redwood City Tribune Home Planning Bureau

Varied Effects

Paint Best Modernizer

A new coat of paint, properly selected and applied, can be one of the most effective of all modernization devices. Careful choice of shades can bring to the house effects not thought possible by the average home owner.

In modernizing a home, painting should be high on the list of improvements. This is one of the numerous items of modernization which may be financed under the modernization credit plan of the Federal Housing Administration.

Among the unusual effects obtainable from painting, devised by the council of paint styling, are:

Dark roofs seem to be lower to the ground; if the roof is too high for the length of the house, paint it a dark color.

LOWER ROOFS

If the house has shutters, paint the shutters of the upper story the same color as the roof. This will visually bring the roof line lower, as the eye will travel to the bottom of the dark shutters. Paint the remaining shutters the color of the body of the house.

If the roof line is cut up by too many gables, everything about the roof should be dark and nothing should stick out in color.

Dormers can make a small house seem larger by being painted on their faces the color of the side wall of the house. This will carry the side-wall color up into the roof and give the appearance of additional height. Dormers on a tall house should be painted the dark roof color. They will visually become part of the roof, making the house seem lower.

REDUCES CHIMNEY

If the chimney is too large for the size of the house, it should be painted the same color as the body of the house to make it appear smaller. With this camouflage, the chimney will blend with the house and will not be noticed.

Where window openings of different sizes disturb the unity of the house's over-all shape, the treatment is painting the openings the same color as the body of the house.

Where a color accent is needed to lower the roof line or draw attention to the first floor, shutters help to achieve this result.

If shuttered windows are of various sizes, remove all smaller shutters and leave only those of the larger and more uniform size.

See that your tools, mower and lawn roller are in condition for service. A little oil here and there will remove and prevent rust.

Summer Tables Brightened By Crocheted Peasant Linen

A luncheon set in natural cotton crash with colorful crocheted borders is simple to make—and it's an ideal background for gay summer breakfast and luncheon dishes. Set consists of four place mats and a runner.

By NEA Service

Peasant-type linens are the perfect background for gay, colorful dishes that brighten porch and terrace and backyard dining tables these Summer days.

Here are directions for making a charming luncheon set—four place mats and a center runner—of natural cotton crash with colorful crocheted borders.

Materials needed are: 1 steel crochet hook No. 7; 1 yard of cotton crash, 50 inches wide; 4 balls of blue, 5 balls of yellow and 5 balls of red pearl cotton, size 5. Place mats will be 12x18 inches, center mat 14x34 inches.

GAUGE: 10 sts make 1 inch; 4 rows make 1 inch.

PLACE MAT BORDERS (Make 2) . . . With Red ch 122 (10 ch sts to 1 inch).

FIRST ROW: D c in 4th ch from hook, d c in each ch across (120 d c). Ch 3 (to count as d c), turn.

SECOND ROW: D c in each of d c across. Ch 3, turn.

THIRD ROW: D c in next d c, thread over, insert hook in next d c and draw loop through, thread over and draw through 2 loops; drop Red, attach Blue and draw through remaining 2 loops.

* Holding Red along top of previous row and working over it to conceal it, make d c in next d c, thread over, insert hook in next d c, draw loop through; thread over and draw through 2 loops; drop Blue, pick up Red and draw through remaining 2 loops.

Holding Blue along top of row and working over it, make d c in next 2 d c, thread over, insert hook in next d c, draw loop through; thread over and draw through 2 loops; drop Red, pick up Blue and draw through remaining 2 loops. Repeat from * across, ending with 2 Blue d c. Fasten off Red, attach Yellow and ch 3, turn.

FOURTH ROW: Working over Blue, make d c in next d c, completing d c with Blue. * Working over Yellow, make 3 Blue d c, completing 3rd d c with Yellow; working over Blue make 2 d c, completing 2nd d c with Blue. Repeat from * across, ending with 3 Blue d c. Fasten off Blue. Ch 3, turn.

FIFTH AND SIXTH ROWS: With Yellow work d c in d c across. Ch 3, turn. At end of 6th row, fasten off Yellow, attach Blue. Ch 3, turn.

SEVENTH ROW: D c in d c across. Fasten off Blue, attach Red. Ch 3, turn. These 7 rows constitute stripe pattern. Repeat pattern once more. Fasten off.

Cut a piece of cotton crash 12x13 inches. Make a ¼-inch hem along all edges (piece will now measure 11x12 inches). Sew borders to 12-inch edges.

CENTER MAT BORDERS (Make 2) . . . With Red ch 142 (10 ch sts to 1 inch) and work as for place mats until 2 complete stripe patterns are made. Fasten off. Cut a piece of cotton crash 15x27 inches, and finish as for place mats.

An Arab revolt generally is directed at the individual leader rather than the leader principle, which is hereditary.

R. C. Glass Co.

Glass For All Purposes

Glass for all purposes may be secured from the Redwood City Glass Co., 2065 Broadway.

This firm, which was started by Walter Bank about a year and a half ago, handles all types of glass and has it available for windows, doors, automobiles, table tops, mirrors, etc.

"We specialize in repair work, from small house windows to large store plate glass windows," Bank stated.

The company has delivery service.

Building Paper Needed In Exterior Walls

Building paper should always be used in exterior frame walls under surface materials to prevent the passage of air, moisture, or dust. The paper used should be of the waterproof type, highly resistant to the passage of air and moisture but not to vapor. It should be strong enough to be installed without tearing and be held in place by cleats or nails.

Before applying the paper on the wall surfaces, strips of paper should be nailed close to and around all openings in the wall. The paper should be well lapped at all joints.

Sudden Lumber

Best Year Is Enjoyed

"We are having one of the best years since we have been in business in Redwood City," V. A. Gairaud, manager of Sudden Lumber Co., 1601 El Camino Real, announced today.

"The building industry in this vicinity is very good at the present time."

The firm, which uses the slogan, "Sudden Service," was organized in Redwood City in 1920. It can provide rough lumber and millwork for any type of house construction, according to Gairaud.

The company has seven employes here and has delivery service.

Opens Into Double Bed

This sofa is as comfortable as the best of them, and yet it opens into a double bed, as shown here.

Discovery

New Wood Finish Offers Many Uses

A new wood finish in facile form gives full sway to creative skill in decorating the interior of modern homes, as it can be applied to either flat or curved walls.

The product is thin wood mounted on cloth and made flexible for direct application to flat and curved surfaces. Available in a number of different woods, it offers a selection to suit practically any decorative or color scheme. It may be used as wall panelling in modernizing homes under the modernizing credit plan of the federal housing administration.

KEEP PAYMENTS LOW

Generally speaking, a home buyer's income should be at least four or five times the amount of the monthly loan payment. In other words, the total home investment should not be more than two or two and one-half times the borrower's annual income.

For a Novel Bathroom, Use This Idea

An unusual bathroom, cool as a spring evening, has walls and woodwork painted off-white, with sash and doors outlined with a narrow border of gray. Shower and window curtains are of apricot color and plumbing fixtures are lettuce green. Potted plants grow on the low window sill of the large window which admits enough sunlight to encourage sun bathing. The gray floor is spread with a gray and mauve rug in angular modern design. A couch for sun bathers has a cushion of apricot color to match curtains.

MOUNT METER OUTSIDE

To avoid the disturbance of the household by meter readers an electric meter may be mounted at right angles to or facing a cellar window so that it can be viewed from the outside of the house or in a cabinet that can be secured to the exterior of the building.

It is no longer an impossible task to build and pay for a home of your own . . . thousands of families are doing it on moderate incomes.

With terms and down payments as low as 10 per cent one can have a new home . . . live in it and pay for it as you would ordinary rent.

The Tribune Home Planning Bureau can supply you with complete information in regard to local builders. The service of this bureau also includes the giving of information pertaining to remodeling, decorating, landscaping and other home improvements. Check the attached coupon . . . this service is entirely without obligation.

Redwood City Tribune Home Planning Bureau 30 California St. Redwood City, California

BIGGEST Trade-In OFFER OF THE YEAR ON RIVERSIDE DELUXE TIRES AND TUBES

Your Old Tire Is Worth . . . **2.50** Traded-in on Any Riverside Deluxe Tire and Tube!

SAFER . . . LONGER WEARING!

Riverside Deluxe, America's finest first-quality tire, gives you more mileage than you'd think possible! Get the extra safety of its double-center-traction tread . . . the deep non-skid design! Smoother . . . quieter running. Warranted to give satisfactory service without limit as to time or mileage! Any necessary adjustments made cheerfully without "red tape!"

HERE'S HOW IT WORKS . . .

Bring in your old tire or tires! Wards will allow you $2.50 towards the purchase of a new Riverside Deluxe tire and tube ($2 if a tire alone is purchased). This allowance is deducted from Wards regular low list prices—NOT an "inflated" price!

DON'T BE FOOLED BY . . .

- Big discounts from "inflated" list prices.
- "Giveaway" offers where you must pay "inflated" prices for one or more tires, in order to get another at a low "special" price.
- A lowering of quality and price, without a change in the brand name.

As Little As $1.25 A Week Buys 4 Tires and Tubes
